Facts on exacqVision Training Classes

Exacq Technologies offers technical training classes for integrators, resellers and end users throughout the United States, Canada, Latin America, Asia, Middle East and Europe. Both our **fundamentals** and **advanced** instructor-led training classes are day-long technical courses that cover all aspects of installing, configuring and using exacqVision IP video surveillance products.

New!

The new advanced training class will cover:

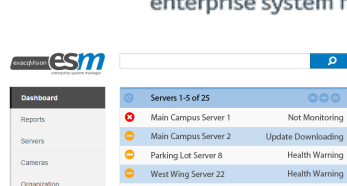

- exacqVision enterprise-level products
